Title

-----

[Brand Name] 0.3mm Airbrush Kit - Indulge Your Craft with Painting Air Brush Kit - Airbrush for Painting Models, Auto Graphics & More - Electric Airbrush Set for Hobbyists - Air Brushes for Painting

Bullet Point #1

-----

Paint Like A Pro — Take the power into your own hands. This air brush set uses air pressure and paint to help you create your next masterpiece. Paint models, auto detailing, fine art, crafts and more. Great for beginners, hobbyists, and professionals alike

Bullet Point #2

-----

Artist's Choice — The ultimate paint tool to bring your art to life. This versatile air brush painter can be used with oil-based, water based, watercolor, and filtered acrylic paints. Take your work to the next level with this air paint sprayer for crafts

Bullet Point #3

-----

Adjust To Fit Your Style — Give yourself more options. This airbrush sprayer features a dual-action air and paint trigger. Effortlessly modify how much paint you use in order to shade speckle free blends or pinpoint fine detailing

Bullet Point #4

-----

Three Paint Cup Options — Meet all your different spray needs. This airbrush kit for plastic models comes with a 7cc copper paint cup, and 20cc and 40cc plastic paint cups. Prime your models or paint finer detail with this model airbrush kit

Bullet Point #5

-----

Endless Airbrush Art — The 0.3mm nozzle allows this extremely versatile airbrush to be used for overall and extra-fine detail spray. It is especially useful for creating a camouflage effect in your artwork. Get to work with your new air brush painting gun and let your imagination guide you
